GRADUATE RESEARCH
ASSISTANT: Aoi Shoda
Phone: 459-5596
Office: 233 SS2
Email: babylab@ucsc.edu

Brief description of Research Project:

Our research projects explore how babies and young children learn about the physical world and how they come to understand people’s behavior. In addition, we ask whether and how babies and young children might be exposed to different kinds of learning support and technology from parents depending on their socio-cultural backgrounds.

Major Responsibilities of Undergraduate Research Assistant:

Conduct studies with babies and young children, observe their responses, code parent-child interactions, transcribe parental reflections on childrearing and parental talk with children, and help with lab operations.

Prerequisites and Qualifications:

Psyc 10.

Expected length of student commitment: Fall 2015 ___ Winter ___ Spring ___ Summer ___
(If student does not fulfill this commitment, it can be reflected in their narrative evaluation.)

Estimated number of hours per week:

- with Faculty Research Supervisor: 
- with Graduate Research Asst: 12
- (if applicable)
- independently on project: 3

Written report will be required: NO
Reading List will be assigned: NO

Type of Academic Credit Available:

- Advanced Developmental Research: Psychology 194A
- Advanced Cognitive Research: Psychology 194B
- Advanced Social Research: Psychology 194C

Number of Undergraduate Research Assistants needed for this project each quarter: 5

Posting Date: revised 2.11
