Developmental Resource Guide:

Why apply to graduate school?
  ○ Can lead to more opportunities for better careers and career advancement and you can pursue your interest in more depth.

A developmental panel was hosted Fall 2019 at UCSC Social Sciences building with Professors Su-hua Wang and Audun Dahl. Also, three graduate students in Developmental research Tess Shirefley, Brenda Celina Gutierrez, and Nicholas Santers.

  ● Below are some helpful tips gathered from the panel:
    - Not every path is the same. It’s okay to take a gap year.
    - Apply when you are ready!
    - Do your research! Know the difference between Developmental Psychology programs and programs in Human Development.
    - Recommended to look into Master’s programs to know the benefits of getting the degree versus the benefits of getting a PhD.
    * When applying look into getting your application fees waived*

Careers in Developmental Psychology
  ○ Work in academia, government settings, health care facilities and schools
  ○ Become a professor and conduct your own research studies.
  ○ Help to assess and evaluate and treat people with disabilities, young or old.

Samples of Developmental Masters/PhD Programs:
